Growing conditions: Finally! Mother nature ended the drought with 200% of normal rainfall. Combined with a cool spring and warm (not hot) summer led to the latest harvest at Victor Hugo! Judicious thinning allowed the grapes to be harvested at optimum maturity producing beautiful wines.

Winemaking: All of the grapes were hand harvested and then whole cluster pressed while still cool. The juice was chilled overnight prior to barreling to ferment in seasoned French oak barrels, this rose was aged on its lees passively prior to blending allowing bottling with minimal filtration.
